

THIRD INTERNATIONAL CONFERENCE ON THE PROGRESS OF  
REGENERATIVE MEDICINE AND ITS CULTURAL IMPACT

---

# Cellular Horizons™

How Science, Technology, Information  
and Communication Will Impact Society

---

April 28-30, 2016  
The Vatican

# Overview

---

Created by the Stem for Life Foundation and the Vatican's Pontifical Council for Culture, this exclusive international event will gather the world's leading cell therapy scientists, physicians, patient advocates, ethicists, philanthropists, leaders of faith and government officials to discuss the latest cellular therapy breakthroughs and engender hope for the future.

Moderated by renowned journalists, the 2016 event will have a unique focus on pediatric cancers and rare diseases, as well as diseases that occur with aging. We will explore the future and how science, technology, information and communication will allow us to personalize medical solutions and remove inefficiencies, improving outcomes while reducing overall health care costs.

We will unite people of all races, religious beliefs, and cultural and economic backgrounds in a global conversation about the healing potential of cell therapy and the importance of delivering approved therapies to people suffering with debilitating medical conditions worldwide.

# Mission

---

**Discuss and understand** the importance of scientific advancements, technology and data in the paradigm shift toward regenerative medicine, with a particular focus on cellular therapies.

**Unite people**, without prejudice, to create an open dialogue about the interconnections among cellular research, technology, faith and culture.

**Foster an international conversation** among researchers, physicians, philanthropists, faith leaders and policymakers to bring cellular cures to those in medical need and identify a pathway to help reduce human suffering throughout the world.

**Create global awareness** and inspire the next generation about the vital linkages between cellular sciences, technological innovation and data to optimize health care at the patient level.

**Catalyze the necessary funding** to support the development of cell therapies, which can effectively treat and potentially cure a broad range of debilitating diseases and medical conditions.

**Establish a global movement** of cellular researchers, medical practitioners, technological innovators and cultural and religious thought leaders devoted to advancing the paradigm shift toward using cell therapy to treat and cure diseases.

# Event Structure

---

A three-day event moderated by leading journalists.

## Day 1

THURSDAY, APRIL 28

---

**THEME:** “Hope for Our Children”

**DAY:** Program from within the Vatican

**NIGHT:** Reception at Villa Taverna (guests invited)

## Day 2

FRIDAY, APRIL 29

---

**THEME:** “Cellular and Technological Breakthroughs in Cancer”

**DAY:** Program from within the Vatican including a keynote speech from the US Vice President Joseph Biden and an audience with the Holy Father, Pope Francis (officially scheduled, pending world events) (guests invited)

**NIGHT:** Tour of St. Peter’s Basilica (guests invited)

## Day 3

SATURDAY, APRIL 30

---

**THEME:** “Cellular Frontiers: Research, Regulation and Funding”

**DAY:** Program from within the Vatican

**NIGHT:** Reception and Tours of The Vatican Museums (guests invited) Sistine Chapel with Cardinal Bertello and a special guest appearance

## DAY 1: Thursday, April 28

*Hope for Our Children*

7:15 am - 8:15 am	BUSES LEAVE HOTELS FOR VATICAN CITY	
7:30 am - 8:15 am	GUESTS ARRIVAL AT THE AULA NUOVA DEL SINODO	
8:30 am	CONFERENCE BEGINS	
8:35 am	<u>WELCOME</u>	<a href="#">Gianfranco Cardinal Ravasi</a> , President, Pontifical Council for Culture.
8:50 am	<u>INTRODUCTORY REMARKS</u>	<a href="#">Robin L. Smith, MD</a> , President, Stem for Life Foundation.
9:10 am	<u>TRIUMPH OVER CANCER</u>	<a href="#">Robin Roberts</a> , Anchor, Good Morning America, her doctor <a href="#">Sergio A. Giral, MD</a> , Chief, Adult Bone Marrow Transplant Service, Melvin Berlin Family Chair in Multiple Myeloma, Memorial Sloan Kettering Cancer Center and her sister, <a href="#">Sally-Ann Roberts</a> , Co-Anchor, Eyewitness Morning News, WWL-TV in New Orleans, discuss Robin's journey with cancer.
9:30 am	<u>WHEN A GRAFT ATTACKS THE PATIENT'S BODY</u>	<a href="#">Donna L. Skerrett, MD</a> , Chief Medical Officer, Mesoblast Limited, discusses the use of an adult stem cell product to treat patients who have graft versus host disease.
9:50 am	<u>NEW HOPE IN THE TREATMENT OF PEDIATRIC CANCER</u>	<a href="#">Robin Roberts</a> moderates a discussion with <a href="#">Susan R. Rheingold, MD</a> , Outpatient Medical Director, Division of Oncology, The Children's Hospital of Philadelphia, Associate Professor, Perelman School of Medicine, Univ. of Pennsylvania, and <a href="#">Nicholas Wilkins</a> and his family.
10:25 am	<u>A FAMILY AFFAIR</u>	Video followed by a discussion with <a href="#">Max Gomez, PhD</a> , Medical Correspondent, CBS News, and <a href="#">Elana Simon</a> , who was diagnosed with fibrolamellar hepatocellular carcinoma at the age of 12.
10:40 am	BREAK	
11:00 am	<u>A GLOBAL MISSION TO TREAT CHILDHOOD CANCER</u>	<a href="#">Rev. Fr. Kevin T. FitzGerald, SJ, PhD</a> , Professor, Dr. David P. Lauler Chair in Catholic Health Care Ethics, Georgetown University, discusses our moral obligation to children worldwide.
11:25 am	<u>CANCER TREATMENT IN DEVELOPING NATIONS</u>	Video and moderated discussion by <a href="#">Robin Roberts</a> about cancer care and bone marrow transplantation, featuring a special project inspired by <a href="#">Eugene Gasana, Jr.</a> , and led by <a href="#">Tanya M. Trippett, MD</a> , to help children with cancer in Africa.  <a href="#">Raphaël F. Rousseau, MD, PhD</a> , Group Medical Director and Global Head, Pediatric Oncology, Genentech, Inc., a member of the Roche group.  <a href="#">Tanya M. Trippett, MD</a> , Pediatric Oncologist, Memorial Sloan Kettering Cancer Center.

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

## DAY 1: Thursday, April 28

*Hope for Our Children*

12:00 pm	<a href="#"><u>ADULT STEM CELL THERAPY TO TREAT BRAIN INJURIES</u></a>	<a href="#"><u>Joanne Kurtzberg, MD</u></a> , Chief Scientific Officer and Chief Medical Officer, Robertson Clinical and Translational Cell Therapy Program, Director, Carolinas Cord Blood Bank, and Director, Pediatric Blood and Marrow Transplant Program, Duke University Medical Center, gives an update on the progress of using cord blood-derived stem cells in cerebral palsy and other diseases of the brain.
12:20 pm	<a href="#"><u>CHILDREN WITH RARE DISEASES</u></a>	Overview of rare diseases by <a href="#"><u>Stephen C. Groft, PharmD</u></a> , Senior Advisor to Director, National Center for Advancing Translational Sciences, and Former Director, Office of Rare Diseases Research National Institutes of Health, USA, followed by a moderated discussion by <a href="#"><u>Max Gomez, PhD</u></a> , between <a href="#"><u>Stephen C. Groft, PharmD</u></a> , and <a href="#"><u>Domenica Taruscio, MD</u></a> , Director, National Centre for Rare Diseases, Italy, around the needs and challenges of families who have children with rare diseases.
1:00 pm	LUNCH BREAK	
2:15 pm	<a href="#"><u>ARE CELL AND GENE THERAPIES THE ANSWER TO TREAT RARE GENETIC DISEASES?</u></a>	<p>A video depicting life for a family with a child who has a rare disease followed by a panel moderated by <a href="#"><u>Stephen C. Groft, PharmD</u></a>, discussing the use of gene therapy and stem cell therapy approaches to treat rare genetic diseases.</p> <p><b>Gene Therapies:</b>  <b>ADA-SCID:</b> <a href="#"><u>Sven Kili, MD</u></a>, Vice President and Head of Gene Therapy Development, GSK.  <b>Batten Disease:</b> <a href="#"><u>David A. Pearce, PhD</u></a>, President of Sanford Research, Sanford Health; Senior Scientist, Children's Health Research Center, Sanford Research; and Professor, Department of Pediatrics, Sanford School of Medicine at the University of South Dakota.  <b>Ocular Diseases:</b> <a href="#"><u>William W. Hauswirth, PhD</u></a>, Rybacski-Bullard Professor of Ophthalmology, College of Medicine, University of Florida.</p> <p><b>Stem Cell Therapies:</b>  <b>Ataxia Telangiectasia:</b> <a href="#"><u>Jill M. Weimer, PhD</u></a>, Director and Scientist, Children's Health Research Center, Sanford Research, Sanford Health; and Associate Professor in Department of Pediatrics, Sanford School of Medicine at the University of South Dakota.  <b>Epidermolysis Bullosa:</b> <a href="#"><u>Jakub Tolar, MD, PhD</u></a>, Professor and Director, Stem Cell Institute, University of Minnesota.  <b>Hereditary Metabolic Disorder:</b> <a href="#"><u>Joanne Kurtzberg, MD</u></a>, Chief Scientific Officer and Chief Medical Officer, Robertson Clinical and Translational Cell Therapy Program, Director, Carolinas Cord Blood Bank, and Director, Pediatric Blood and Marrow Transplant Program, Duke University Medical Center.</p>
3:30 pm	<a href="#"><u>REBALANCING AN OVERACTIVE IMMUNE SYSTEM</u></a>	<a href="#"><u>Neil K. Warma</u></a> , President and Chief Executive Officer, Opexa Therapeutics, Inc., discusses the use of T-cells to treat NMO and other autoimmune disorders.

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

## DAY 1: Thursday, April 28

*Hope for Our Children*

3:45 pm	BREAK	
4:05 pm	<a href="#"><u>SPECIAL GUEST</u></a>	<a href="#"><u>Gary Hall, Jr.</u></a> , Olympic Gold Medal Winner, talks about triumph in spite of having Type 1 Diabetes.
4:20 pm	<a href="#"><u>THE TYPE 1 DIABETES LANDSCAPE</u></a>	<a href="#"><u>Henry Anhalt, DO</u></a> , Chief Medical Officer, T1D Exchange, gives an overview of the disease followed by a video tour led by <a href="#"><u>Max Gomez, PhD</u></a> , of research centers developing cell therapy treatments for people with Type 1 Diabetes.
4:35 pm	<a href="#"><u>CELL THERAPY RESEARCH DISCUSSION FOR TYPE 1 DIABETES</u></a>	<p><a href="#"><u>Henry Anhalt, DO</u></a>, moderates a panel examining unique approaches to treat and hopefully, one day, cure Type 1 Diabetes.</p> <p><a href="#"><u>Jeffrey A. Bluestone, PhD</u></a>, Executive Vice Chancellor and Provost, University of California, San Francisco.</p> <p><a href="#"><u>Douglas W. Losordo, MD</u></a>, Senior Vice President, Clinical, Medical and Regulatory Affairs and Chief Medical Officer, Caladrius Biosciences.</p> <p><a href="#"><u>Douglas A. Melton, PhD</u></a>, Co-Director of Stem Cell Institute and Co-Chair, Department of Stem Cell and Regenerative Biology, Harvard University.</p> <p><a href="#"><u>David A. Pearce, PhD</u></a>, President of Sanford Research, Sanford Health; Senior Scientist, Children's Health Research Center, Sanford Research; and Professor, Department of Pediatrics, Sanford School of Medicine at the University of South Dakota.</p> <p><a href="#"><u>Yong Zhao, MD, PhD</u></a>, Associate Scientist, Hackensack University Medical Center.</p>
5:40 pm	<a href="#"><u>LIVING WITH TYPE 1 DIABETES</u></a>	<a href="#"><u>Robin Roberts</u></a> discusses living with Type 1 Diabetes with the Panzirer family.
6:05 pm	<a href="#"><u>THE 2016 PONTIFICAL KEY INNOVATION AWARD PRESENTATION</u></a>	
6:30 pm	BUSES TO TAKE ATTENDEES TO RECEPTION OR TO HOTELS	
7:00 pm - 9:00 pm	COCKTAIL RECEPTION AT THE VILLA TAVERNA WITH GUESTS	

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

**DAY 2: Friday, April 29***Cellular and Technological Breakthroughs in Cancer*

7:15 am - 8:15 am	BUSES LEAVE THE HOTELS FOR VATICAN CITY	
7:30 am - 8:15 am	GUEST ARRIVAL AT THE AULA NUOVA DEL SINODO	
8:15 am	DAY 2 PROGRAM	
8:15 am	SPECIAL GUEST	<a href="#">Pietro Cardinal Parolin</a> , Secretary of State, Vatican.
8:20 am	<a href="#">OVERVIEW</a>	<a href="#">Robin L. Smith, MD</a> , President, Stem for Life Foundation.
8:25 am	<a href="#">PERSONAL STORY OF WORK IN ADVOCACY</a>	<a href="#">Katie Couric</a> , Yahoo Global News Anchor and Co-Founder, Stand Up to Cancer, tells her personal story and talks about the importance of finding a cure for cancer.
8:35 am	<a href="#">IMMUNOTHERAPY</a>	<p><a href="#">Katie Couric</a> moderates a discussion with some of the leading scientists working in the field of immunotherapy.</p> <p><a href="#">James P. Allison, PhD</a>, Professor and Chair, Immunology, University of Texas MD Anderson Cancer Center.</p> <p><a href="#">Carl H. June, MD</a>, Richard W. Vague Professor in Immunotherapy, and Director, Translational Research Program, Abramson Cancer Center, Perelman School of Medicine, University of Pennsylvania.</p> <p><a href="#">Tak W. Mak, MD</a>, Senior Scientist, Ontario Cancer Institute, Princess Margaret Hospital.</p> <p><a href="#">Jedd D. Wolchok, MD, PhD</a>, Chief, Melanoma and Immunotherapeutics Service and Lloyd J. Old Chair for Clinical Investigation, Memorial Sloan Kettering Cancer Center.</p>
9:35 am	<a href="#">FACILITATING CURES WITH IMMUNOTHERAPY</a>	Discussion between <a href="#">Katie Couric</a> and <a href="#">Sean Parker</a> , President, The Parker Foundation and Founder, The Parker Institute.
10:05 am	<a href="#">COMBINATION THERAPIES FOR CANCER</a>	<p><a href="#">Max Gomez, PhD</a>, moderates discussion about the future of cancer therapy and the need for using multiple agents to enhance our body's ability to destroy cancer cells.</p> <p><a href="#">Chris Boshoff, MD, PhD</a>, Head and Vice President for Early Development, Translational and Immuno-Oncology, Pfizer Corporation.</p> <p><a href="#">Axel Hoos, MD, PhD</a>, Senior Vice President, Therapeutic Head Oncology Research and Development, and Head of Immuno-Oncology, GSK.</p> <p><a href="#">Grant McArthur, PhD</a>, Professor, University of Melbourne and Sir Peter MacCallum Department of Oncology, Australia.</p> <p><a href="#">Jeffrey Schlom, PhD</a>, Chief, Laboratory of Tumor Immunology and Biology, National Cancer Institute, National Institutes of Health, USA.</p> <p><a href="#">Patrick Soon-Shiong</a>, Chairman and CEO, Chan Soon-Shiong Institute of Molecular Medicine, and Chairman and CEO, NantKwest..</p>

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

## DAY 2: Friday, April 29

*Cellular and Technological Breakthroughs in Cancer*

11:05 am	BREAK	Move to Città del Vaticano “Sala Nervi.”
11:35 am	<a href="#">CANCER MOONSHOT</a>	<a href="#">Joseph R. Biden, Jr.</a> , Vice President of the United States..
12:00 pm	<a href="#">AUDIENCE WITH POPE FRANCIS</a>	Officially scheduled, subject to world events.
1:00 pm	LUNCH BREAK	
2:00 pm	<a href="#">EVOLVING GENOMICS TO PROTEOMICS AS A PATH TO THE CANCER VACCINE</a>	<a href="#">Patrick Soon-Shiong</a> , Chairman and CEO, Chan Soon-Shiong Institute of Molecular Medicine, and Chairman and CEO, NantKwest.
2:30 pm	<a href="#">RATIONALIZING HEALTH CARE THROUGH BIG DATA</a>	<a href="#">Sanjay Gupta, MD</a> , Chief Medical Correspondent, CNN Health, Wellness and Medical, leads a discussion with <a href="#">Steven Kafka, PhD</a> , President and Chief Operating Officer, Foundation Medicine, Inc., <a href="#">Andrew L. Pecora, MD</a> , Founder and Executive Chairman, COTA, and <a href="#">Glenn D. Pomerantz, MD</a> , JD, Chief Medical Officer, Horizon Blue Cross Blue Shield of New Jersey, on how to improve clinical outcomes by identifying and eliminating care variance and driving efficiencies in health care spending.
3:15 pm	<a href="#">USING ADULT STEM CELLS TO TREAT AUTOIMMUNE DISORDERS</a>	<a href="#">Sanjay Gupta, MD</a> , moderates a discussion with <a href="#">Richard K. Burt, MD</a> , Chief of the Division of Immunotherapy, Department of Medicine, Northwestern University Feinberg School of Medicine, and two of his patients, <a href="#">Elizabeth Cougentakis</a> and <a href="#">Grace Meihaus</a> .
3:50 pm	BREAK	
4:05 pm	<a href="#">A NEW PARADIGM IN DRUG DISCOVERY AND HEALTH CARE DELIVERY USING TECHNOLOGY AND BIG DATA</a>	<a href="#">Ronald A. DePinho, MD</a> , President, University of Texas MD Anderson Cancer Center, describes MD Anderson’s evolving organizational paradigm, which is designed to more rapidly and efficiently convert knowledge into clinical endpoints that reduce mortality, followed by a panel moderated by <a href="#">Sanjay Gupta, MD</a> , discussing how science, technology, information and communication will impact our ability to deliver medical treatment more efficiently at an individual level while improving clinical outcomes and accelerating discovery.  <a href="#">Lynda Chin, MD</a> , Associate Vice Chancellor for Health Transformation and Chief Innovation Officer for Health Affairs, The University of Texas. <a href="#">Robert H. High, Jr.</a> , IBM Fellow, Vice President and Chief Technology Officer, IBM Watson. <a href="#">Krishnan Nandabalan, PhD</a> , President and Chief Science Officer, BioXcel Corporation.

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

**DAY 2: Friday, April 29***Cellular and Technological Breakthroughs in Cancer*

5:00 pm	<u>THE DAWN OF NEXT GENERATION HEALTH CARE</u>	<u>Gregory Stock, PhD</u> , Professor, Department of Genetics and Genomic Sciences and Co-Director, Harris Center for Precision Wellness, Icahn School of Medicine at Mount Sinai and author of “Redesigning Humans,” looks at emerging disruptive technologies and the new health care paradigm that real-time monitoring, “omics,” and data science will bring.
5:30 pm	<u>HUMANS 2.0</u>	<u>Katie Couric</u> moderates a discussion between <u>Gregory Stock, PhD</u> , and <u>Rev. Fr. Nicanor Pier Giorgio Austriaco, OP, PhD, STD</u> , Associate Professor of Biology and Theology, Providence College, exploring societal, ethical, psychological and spiritual implications of how technological advances in life sciences are poised to challenge even what it means to be human.
6:15 pm	<u>THE 2016 PONTIFICAL KEY VISIONARY AWARD PRESENTATION</u>	
6:30 pm	ST. PETER’S BASILICA TOUR WITH FAMILIES AND GUESTS	
6:30 pm - 7:45 pm	BUSES TO TAKE ATTENDEES AND GUESTS TO HOTELS	

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

**DAY 3: Saturday, April 30***Cellular Frontiers: Research Regulation and Funding Cellular Therapy*

7:15 am - 8:15 am	BUSES LEAVE HOTELS FOR VATICAN CITY	
7:30 am - 8:15 am	GUEST ARRIVAL AT THE AULA NUOVA DEL SINODO	
8:15 am	DAY 3 PROGRAM	
8:15 am	<u>THIRD DAY OPENING REMARKS</u>	<u>Robin L. Smith, MD</u> , President, Stem for Life Foundation.
8:25 am	<u>SPECIAL GUEST</u>	<u>Tarcisio Cardinal Bertone</u> , Cardinal Emeritus Secretary of State, Vatican.
8:30 am	<u>STEM CELLS IN THE BODY AND HOW TO ISOLATE THEM AND APPLY THEM</u>	<u>Eckhard U. Alt, MD, PhD</u> , Todd and Linda Broin Distinguished Professor and Chair, Sanford Research, Sanford Health; Professor, Technische University and Tulane University; and Founder and Chairman of the Board at Isar Klinikum in Munich and InGeneron, Inc., in Houston, discusses where adult stem cells can be collected and how they can be used to repair our bodies.
9:00 am	<u>APPLICATION OF MESENCHYMAL STEM CELLS TO REPAIR DAMAGED TISSUE</u>	<p><u>Sanjay Gupta, MD</u>, discusses the use of adult stem cells to replace and restore damaged tissue.</p> <p><b>ED:</b> <u>Mohit Khera, MD, MPH</u>, Associate Professor, Baylor College of Medicine.</p> <p><b>Fistulas:</b> <u>Eduardo Bravo</u>, Chief Executive Officer, TiGenix.</p> <p><b>Heart:</b> <u>Silviu Itescu, MD</u>, Chief Executive Officer, Mesoblast Limited.</p> <p><b>Lungs:</b> <u>Marilyn Glassberg Csete, MD</u>, Professor of Medicine and Surgery, Director of the Interstitial Lung Disease Program, and Chief, Pulmonary Division, Interdisciplinary Stem Cell Institute, University of Miami Miller School of Medicine.</p> <p><b>Musculoskeletal Structures:</b> <u>Philip B. Schoettle, MD, PhD</u>, Medical Director of Orthopedics and Sports Medicine, Isar Klinikum.</p>
10:10 am	<u>REBUILDING AND RESTORING THE HUMAN BODY</u>	<p><u>Max Gomez, PhD</u>, moderates a discussion examining exciting new approaches to repairing and restoring organs.</p> <p><u>David H. Ahrenholz, MD</u>, Former President, American Burn Association.</p> <p><u>Anthony Atala, MD</u>, Director, Wake Forest Institute for Regenerative Medicine; W.H. Boyce Professor and Chair, Department of Urology, Wake Forest University.</p> <p><u>Keith Murphy</u>, Chairman and Chief Executive Officer, Organovo, Inc.</p> <p><u>Marc S. Penn, MD, PhD</u>, Director of Research and Cardiovascular Medicine Fellowship, Summa Cardiovascular Institute.</p>
10:55 am	BREAK	

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

**DAY 3: Saturday, April 30***Cellular Frontiers: Research Regulation and Funding Cellular Therapy*

11:10 pm	<u>PATHWAY TO SPEEDING CURES</u>	<p><a href="#">The Honorable Tommy G. Thompson</a>, 42nd Governor of Wisconsin and former HHS Secretary, moderates a special conversation on speeding the development of cellular cures.</p> <p><a href="#">W.E. Bosarge, PhD</a>, American philanthropist, mathematician and entrepreneur.</p> <p><a href="#">Andrew C. von Eschenbach, MD</a>, Former Commissioner, U.S. FDA and 12th Director, National Cancer Institute, National Institutes of Health, USA.</p> <p><a href="#">The Honorable William H. Frist, MD</a>, American physician, businessman, politician, former U.S. Senator from Tennessee and former U.S. Senate Majority Leader.</p> <p><a href="#">Tatsuya Kondo, MD, PhD</a>, Chief Executive, Pharmaceuticals and Medical Devices Agency (PMDA), Japan.</p> <p><a href="#">Guido Rasi, MD</a>, Executive Director, European Medicines Agency (EMA).</p>
12:10 pm	<u>ALIGNING STAKEHOLDERS TO BUILD A REGENERATIVE CARE MODEL</u>	<p><a href="#">Edward A. Tenthoff</a>, Managing Director and Senior Research Analyst, Piper Jaffray, <a href="#">C. Randal Mills, PhD</a>, and <a href="#">Andre Terzic, MD, PhD</a>, Michael S. and Mary Sue Shannon Director, Center for Regenerative Medicine, and Marriott Family Professor, Mayo Clinic, discuss the evolution of regenerative medicine from the promise to practice through the integrated efforts of academia, health care providers, industry and regulators.</p>
12:50 pm	<u>PAYING FOR MIRACLES</u>	<p><a href="#">Katie Couric</a> moderates a special panel examining how not-for-profits are approaching investment into cell therapy research and spending money on a search of effective treatments.</p> <p><a href="#">Dana Ball</a>, Chief Executive Officer, Unitio and Co-founder and Executive Director, T1D Exchange.</p> <p><a href="#">C. Randal Mills, PhD</a>, President and Chief Executive Officer, California Institute for Regenerative Medicine (CIRM), California's Stem Cell Agency.</p> <p><a href="#">David Panzirer</a>, Trustee, The Helmsley Trust.</p> <p><a href="#">Derek K. Rapp</a>, President and Chief Executive Officer, JDRF.</p>
1:30 pm	LUNCH BREAK	
2:45 pm	<u>FACILITATING CELLULAR INNOVATION AND DISTRIBUTION</u>	<p><a href="#">Max Gomez, PhD</a>, hosts discussion with <a href="#">Krishnendu Roy, PhD</a>, Technical Lead, US National Cell Manufacturing Consortium and Director, Marcus Center for Cell-Therapy Characterization and Manufacturing (MC3M), Georgia Institute of Technology, and <a href="#">Fred Sanfilippo, MD</a>, PhD, Director, Emory-Georgia Tech Healthcare Innovation Program, and Medical Director and Trustee, The Marcus Foundation, to address the logistical challenges and approaches to speed cures by removing barriers.</p>

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.

**DAY 3: Saturday, April 30***Cellular Frontiers: Research Regulation and Funding Cellular Therapy*

3:25 pm	<u>HEALTHY AGING</u>	<p>Video Searching for Dorian Gray followed by moderated discussion by <a href="#">Max Gomez, PhD</a>, looking at different perspectives influencing aging.</p> <p><a href="#">Nir Barzilai, MD</a>, Director, Institute for Aging Research at the Albert Einstein College of Medicine and Director, Paul F. Glenn Center for the Biology of Human Aging Research and of the National Institutes of Health's Nathan Shock Centers of Excellence in the Basic Biology of Aging.</p> <p><a href="#">Ronald A. DePinho, MD</a>, President, University of Texas MD Anderson Cancer Center.</p> <p><a href="#">Robert Hariri, MD, PhD</a>, Co-Founder and President, Human Longevity, Inc.</p> <p><a href="#">Pranela Rameshwar, PhD</a>, Professor, Department of Medicine, Division of Hematology/Oncology, Rutgers New Jersey Medical School.</p>
4:25 pm	BREAK	
4:40 pm	<u>FEEDING CELLS, STARVING CANCER AND AGING WELL</u>	<a href="#">William W. Li, MD</a> , President and Medical Director, Angiogenesis Foundation.
5:00 pm	<u>CELL THERAPY PHILANTHROPY</u>	<p>Discussion moderated by <a href="#">Max Gomez, PhD</a>, concerning the criteria for philanthropic support.</p> <p><a href="#">W.E. Bosarge, PhD</a>, President, Bosarge Family Foundation.</p> <p><a href="#">Sean Parker</a>, President, The Parker Foundation and Founder, The Parker Institute.</p> <p><a href="#">T. Denny Sanford</a>, Chairman and Chief Executive Officer, United National Corporation and Health Care Philanthropist (with Kelby K. Krabbenhoft, President and Chief Executive Officer, Sanford Health).</p>
6:00 pm	<u>THE 2016 PONTIFICAL KEY PHILANTHROPY AWARD PRESENTATION</u>	
6:20 pm	<u>CLOSING REMARKS</u>	<a href="#">Robin L. Smith, MD</a> , President, Stem for Life Foundation.
6:30 pm	COCKTAIL RECEPTION AND TOURS OF THE VATICAN MUSEUMS WITH GUESTS	
9:00 pm	SISTINE CHAPEL	<a href="#">Giuseppe Cardinal Bertello</a> , President, Governorate of Vatican City State, and President, Pontifical Commission for Vatican City State, hosts a group with an appearance of a special guest.

Note: Buses will shuttle to and from the hotels every 10-15 minutes throughout the conference.
